

Name ** Custom Display String Enhanced Version**
Updated by Mathias PFAUWADEL 1.0

Patch Notes

- 1.0 : 1st version working

To be Done

Description

Allow you to modify the custom display string to be more flexible

Screen Shot

Node setup

```
<@{name}@> GDPR <#process diagram popout#>
```

Options

URL to the object Page :

If you put <@ @>, only the part inside will be clickable on drive you to the objectPage

Diagram pop-out :

If you put `<#nameofthePopOut #>`, this will create an icon, when clicking it will open the popOut
